A graphic of the mixer's 4 faders float into view.

As one of the faders moves down, the video's music lowers in volume.

The fader moves back up and the video's music returns to normal level.

Text appears: Plug and play for fuss-free setup.

Looking at the bottom side of the mixer, we see two 3.5mm ports and two icons representing a microphone and headset.

The icons float over and disappear over the ports, representing the devices plugging in.

The mixer swivels to its top side to show 5 ports.

5 icons appear one after another and float towards their respective ports to be plugged in, in the order of: XLR in, Line In/Out, Optical In, and Type C.
